

# Solutions Powered by EDI Fine Bubble Aeration Products

- ✓ Maximum air capacity per tank area
- ✓ Highest installable diffuser density
- ✓ Superior mixing efficiency (better than coarse bubble at same airflow)

# Solutions Powered by EDI Fine Bubble Aeration Products

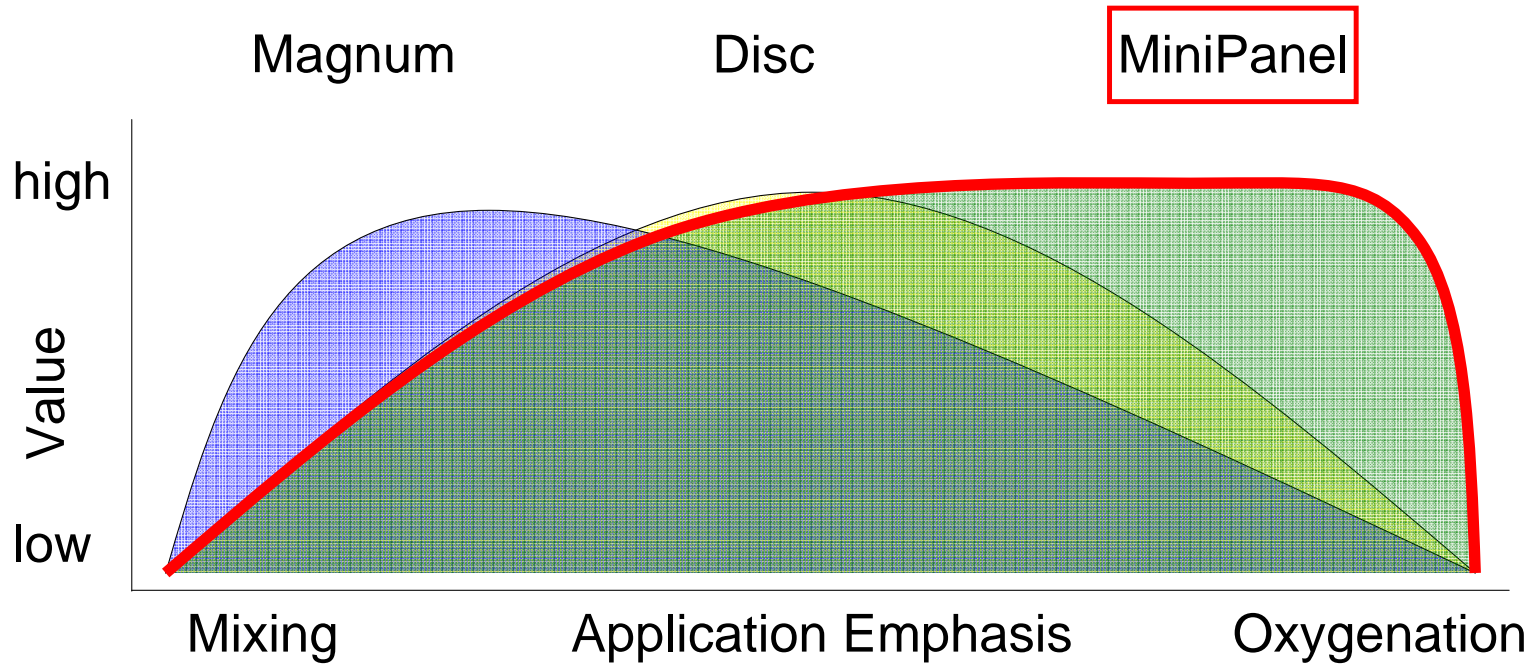

- ✓ Traditional fine bubble OTE performance
- ✓ Economical system with engineered diffuser, piping, and support components
- ✓ Moderate installable diffuser density
  - Limited application range for best NPV

# Solutions Powered by EDI Fine Bubble Aeration Products

EDI FlexAir<sup>®</sup> Diffusers

- ✓ High installable diffuser density
- ✓ Low operating Fluxrate for highest available OTE
- ✓ Lowest NPV solution for oxygenation applications
